PROFILE

I am a learner more than anything. I have shaped myself in different roles including but not limited to: Full-stack developer, Blockchain developer, Cloud engineer, AI developer, Project Manager and an Entrepreneur. I love to learn and keep multi-dimensional approach while doing so. I am enthusiastic about research and innovation.

RELEVANT WORK EXPERIENCE

■ **2021 - 2024**
Venture23

Full-stack Blockchain Developer and AI Consultant

- System Architecture Design and Development Lead for P2E Simulation Game.
- Smart Contract development and utilities for EVM and non-EVM based chains.
